The Committee of Arrangements of St. Anne's Parish met at Burke's Club Rooms, 5533 Wentworth Ave., Sunday, Feb. 9, for the purpose of making final arrangements for the celebration of Emmett's Anniversary, Tuesday, March 4, at St. Anne's Auditorium, 55th and Wentworth Ave. The following are the members of the Committee: T. H. Prendergast, Chairman; Emmett Flavin, Secretary; Jas. F. Battle, Treas., and the following, James A. Kearns, Dr. J. Normoyle, John W. Wolfe, John Burke, James Hyland, Thos. McManus, Oscar Leinen and others. This promises to be the largest demonstration on the South Side in honor of Ireland's great patriot and is under the same management as the one given at the same place December 22nd, where thousands were turned away. The Committee is cooperating and acting in harmony with the committee of one hundred who will give a similar demonstration at Orchestra Hall, Monday, March 3, and urges their friends to attend the Orchestra Hall meeting. Dr. Patrick McCartan the Irish envoy from the Irish Republic will address both meetings. A complete program will be published later.

RESPONSIBILITY FOR THE WAR

It is a vital thing to have the evidence as to who started the recent war, presented in such clear and complete form that even the German people must be convinced. Unfortunately there is as yet no indication that they have learned the falsity of the explanations given them by the Kaiser and his propaganda machine.

If two men get into a fight, and one of them was all loaded up with pistols and knives and had been shooting at a mark for a long time, while the other was wholly unready and unprepared, most people would feel convinced as to which was responsible. Furthermore if the well armed man was found over on his neighbor's land where he had agreed not to trespass, the evidence would be still clearer. But there is in existence plenty of more positive testimony.

Every scrap of such evidence now *held in the German foreign office and* state department, should be handed over.

It is of course quite likely that the gang around the Kaiser, in the days just before their collapse, destroyed most of the incriminating evidence in their possession. But the final collapse came so suddenly that they might possibly have neglected to do this. The Socialist provisional government might or might not care to destroy this evidence if it survived the downfall of the Kaiser's government.

It has been reported that representatives of the provisional German government, on examining these archives, found abundant proof of the guilt of the Kaiser's government. If they wish the allies to take at face value their protestations of desire for a peace of justice, they must make no obstacles to the fullest investigation of the causes of the war. They should at once hand over all documents and files containing any material evidence.

Mrs. Neiman. Pink and white dominated in the color scheme and decorations. Miss Ross received many beautiful flowers and gifts. There were nineteen pink candles on the cake, though of course Peg wouldn't want anyone to know how old she is! A Baby Doll Party will be given at the home of Miss Rose Wilmarth, 7428 Normal Ave., on St. Valentines Night, so girls get out your hair ribbons, sox, 'neverything, and don't forget to dust up your dolls!

The Rev. J. C. Welsh has come to succeed the late Rev. J. J. Greene of St. Kilian's church, 87th and Aberdeen Sts. Rev. Greene was previously a pastor of St. Agnes Church, Chicago Heights.

Miss Lenore A. Hallinan, of 7925 May St., spent the week end with friends in Joliet, Ill.

The "Reds" will give a dance and party at Cosmopolitan Hall, Feb. 22, Sat. evening. Music by Reedy.

The Hamilton Park Woman's Club will meet Tuesday, Feb. 11, at 10:30 a. m. The civics department will have charge of the program. Mrs. R. M. Reed will speak on "Legislation." There will be a musical program. Miss Georgene Faulkner will give Red Cross stories.

Mr. Arthur Dilger was mustered out of service last week and has returned to his home, 7812 Carpenter St.

There will be a valentine eve. party on Thursday evening, Feb. 13, at the South Shore Country Club.

The residents of Bishop St. will give a card and bunco party at St. Sabina's Hall, 78th and Throop Sts. on Friday evening, Feb. 14.

The Catholic Art Society will give a moving picture entitled "The Transgressor" at St. Sabina's Church, Feb. 18 and 19.

The Englewood High School is holding evening classes Monday, Tuesday, Wednesday and Thursday evenings, from 7:30 to 9:30 p. m. Classes in English elementary grade studies, cooking, sewing, millinery, bookkeeping, typewriting, electricity, etc.

The Auburn Park Thirty Club will meet at the home of Mrs. William L. Compton, 7649 Union Ave. The "Drama of Russia" will be studied.

Lieutenant Ivan Rossiter of the first and third Canadian Mounted Rifles, related his story as prisoner of war in a German prison camp on Tuesday evening at the Calvary M. E. Church, 78th and Morgan Sts.

A Republican mass meeting was held at Cosmopolitan Hall last Thursday. Mayor Wm. Hale Thompson and Dr. John Dill Robertson spoke.

Lyndon Perry Mayeskie, Yeoman First Class in the United States Navy stationed at Philadelphia Navy Yard is home with his parents Major and Mrs. John R. Mayeskie, 8012 Throop St., to spend a thirty-day furlough. He has just taken his discharge from the Naval Reserve in which he enlisted about a year ago for the war and re-enlisted for four years in the navy.

John Roy Mayeskie, Jr., the other son of this patriotic family, who enlisted in the United States Navy early in 1918 and served as Pharmacist, has been released from further duty and is now at home at 8012 Throop Street with his parents. Although he made several trips across the big pond to bring our boys over there and back again, he regrets that he could not have done more.

The Oglesby School garden committee found many fruit trees in our district very much in need of spraying, fertilizing and pruning.

Fruit trees should be sprayed six times during the season. The lime and sulphur and the bordeaux mixture is not expensive but the sprayer is made of copper and is costly. Anyone owning a sprayer and willing to lend or rent it will help feed the world if he will co-operate. One owner of several large fruit trees is willing to rent the trees for half the crop. Let the Parent-Teacher's Association hear from you.

STORE WINDOW VS. NEWSPAPER

A merchant, speaking about advertising *the other day, said his store* window gave him all he needed and was the best kind of advertising.

Yet the proportion of the people of Auburn Park or any other community, who ever look much at a store window, is small compared to the whole population. Street loafers may gaze long and intently into the windows, yet lack money to buy the goods. The people who are busy as they hustle around town on their errands, don't stop and gaze thoughtfully into windows.

The merchant can't win such people by any appeal to their intelligence that he places in his display. If he showed a placard telling his story in detail, the busy people would be in too much of a hurry to read it. About the only impression such people form of a store window, is that it may be a pretty display tastefully arranged. But it takes more than prettiness and taste to sell goods. The cheapest kind of material can be made to look very attractive when all dolled up with ribbons and electric lights. People thoroughly realize that, and are not captured by appeals made merely to the eye.

To persuade people to buy your goods, you must appeal to their reason, and address them when they are at leisure and in a mood to consider your arguments.

The true psychological moment is the half hour of leisure when people sit down to read the home paper. It is a time when people are not pressed by work and engagements. They mull over the news and advertising, and the things that are said sink into their minds and are considered on their merits. It is under these circumstances that successful selling appeals are made. This is where the enterprising merchant drops his hints that result in a crowd of people at his store. Advertising in the Auburn Community Booster brings the people to your store to see your windows.

This list of names is but a partial list of the real workers of the Auburn Highlands Improvement Club. Some day we hope to give our readers the complete roster of the club for they are all Boosters of this wonderful organization.

Many readers of this paper who are not members of this organization reside in the territory operated by the Club and may note conditions that should not be, if so, they will confer a favor upon the other residents of the community if they will bring the affair to the attention of some official noted above and more especially on transportation. At the present time the transportation conditions out our way could be improved by the co-operation of the community, and it is hoped that any resident of this community who has to wait unduly or change cars without warrant while traveling either to or from Auburn Highlands will note exactly the time lost in hours and minutes, the leaving and arriving time, the exact car and conductors numbers, and the general bearing and sobriety of the crew. Be specific or you can not help. After you get your information transmit it at once to Mr. A. J. Merker, 8028 Elizabeth St., who is capable and willing to use it to the best of advantage. Get in touch with Mr. Merker personally or write him at his home or call him up, phone Stewart 1331. He will be glad of your co-operation.

Don't be afraid to be seen noting car and conductor's numbers and the time as the very fact that you and others do care and are on the job will at once tend to improve the situation. Be specific.

Playing Safe.

Billy wrote a letter to Santa Claus and when he finished he asked his father for a check. "Cause," said the little fellow in way of explanation, "of course Santa Claus has to pay his helpers or maybe the'd go off and strike on Christmas eve."

NEWS TRAVELS FAST and by many tongues. Judicious buyers of coal demand "Meiner's Special" or "Harrisburg for Heat" soft coal because it is the right size, gives off an immense heat, lasts all night and has no screenings. Can be used in any steam or hot water plant; also in hard coal furnaces or stoves. You will have no trouble to keep fire all night with this coal.

HOME STORE SERVICE

Do you know what the stores of Auburn Park do for you? Do you fully realize their faithful, loyal, painstaking service, rendered day after day and year after year? Do you understand how much hard work, study, brains, and intelligence are devoted to this form of public service?

The Auburn Community Booster, feeling that the merchants of our community and their helpers perform a function the value of which we may not fully comprehend, is to print a series of brief little editorials on the above subject, beginning with this issue. It will endeavor to show what our business center means to us, and what a triumph of civilization and efficiency it is when the products of the entire world are laid at our feet, accessible on a moment's notice.

The story of these stores is a record of human energy and enterprise. We should be proud of what they have done to bring comfort, enjoyment, facilities of modern living, and culture to our community. This little series of editorials will suggest some reasons why.

The Service of the Home Stores No. 1

The service which the stores of Auburn Park offers to our people, is an achievement which is not always realized as we thoughtlessly make use of their service. And it is something far beyond what has been created by any one group of men.

It is linked up with a system of world wide distribution, which has been built up through years of effort of the brightest business minds.

Years ago the ordinary retail store had no such command over the resources of the world. Today a system has been organized by which even a small store can draw at once on central distributing points for anything under the sun. It is visited regularly by trained representatives of these distribution centers, who give expert help on supplying public needs. Even the little store becomes an integral part of a great system, able to rise to high standards of service.

BUTCHERS UNION ORGANIZES AUBURN STORES

The butcher shops of Auburn Park have recently been added to the membership in the International Meat Cutters Union and have agreed to a new schedule of business hours. Effective Feb. 17, the meat markets in Auburn Park and throughout the South Side will open at 8 a. m. daily and close at 6 p. m. sharp, except Saturdays, when they will close at 9 p. m.

These hours give ample time to everyone to make their purchases and gives the hard working meat men and their employees an opportunity to gain some little recreation and amusement. The movement should meet with the kindly cooperation of the public and good housekeepers will arrange their shopping accordingly.

Find the Right Handle.

Everything, as Epictetus once said, has two handles. Taking hold of it by one, we find it unbearable; taking hold by the other, we discover it to be easily and pleasantly borne.

Geraldine Farrar

IN

"Shadows"

Picture Geraldine Farrar, grand opera prima donna, as an Alaskan dance hall girl, in all the tawdry finery and glitter of one of the denizens of these places Rather hard to do, isn't it? And yet Miss Farrar's versatility as an actress knows no limits, and it is but another proof of her art that she steps from one environment to another with the ease of an artist that she is Willard Mack, author of many stage successes wrote the story and the struggle of a happily married society woman to escape from the clutches of her past is splendidly done not only by the star but by Milton Sills and Tom Santschi and the balance of the cast is well Its a corker!

IN

"Happy Though Married"

Are you? If you are you're one of the lucky ones, because honest to goodness about every other couple one meets nowadays seems to have made the wrong tie-up, and looking for a soul mate or something In this story in which Enid Bennett portrays the leading role the young wife was very much in love with her husband but she was so intensely jealous of him, and managed to twist the most innocent little mole hills into perfect mountains of suspicion And then she saw him with a beautiful Spanish girl, who was really his brother's wife—and she suspect the worst How matters are finally cleared up may teach you a lesson if you're of a jealous disposition.

Mae Marsh

—IN—

"The Bondage of Barbara"

Have you a brother or a sister whom you love very dearly? Suppose you have a brother do you think you could do as Barbara Gray did to save your wayward brother from going to the bow-bows? That is become a boy yourself and go to prison in your brother's place? Pretty large job isn't it, but that little girl loved her brother and wanted to save him and besides she had promised her dying mother that she would always look after and protect him so what else was there for her to do? Of course he wins out in the end but who else could such a girl do Mae Marsh makes the most adorable of boys, and it is a role somewhat different from any that the girl of a thousand faces has heretofore attempted

Special — MEN'S GOWNS
Men's extra heavy flannelette Gowns in neat pink and blue stripes, $2.25 values, sale price . . . **1.95**

Care of Steel.

Steel knives and other steel articles which are not in general use may be kept from rusting if they are dipped in a strong solution of soda, one part water to four of soda, then wiped dry with flannel and kept in a dry place.

Treadmill for Chickens.

To make chickens take exercise necessary for growth, an inventor has patented a feed box in front of which is a revolving platform over which they must scramble to get anything to eat.

Eagle's Flight.

An eagle has been observed to rise from the ground and completely disappear into the sky within three minutes. Eagles sometimes soar to heights of 15,000 feet or more.

Refresh Your Principles.

When a man starts afresh, either with the newness of a new year or with the stimulus of altered circumstances or with the inspiration of a new work, what his start ought to do for him is to refresh the deepest principles by which he lives.—Phillips Brooks.

How World Is Colored.

After all, the kind of world one carries about in oneself is the important thing, and the world outside takes all its grace, color and value from that. —James Russell Lowell.

A Man and the World.

The world owes you nothing, unless by your own achievements you have made it your debtor. The man who imagines that the world owes him a living has taken the first step toward knavery; the second step is taken when he tries to collect the debt which is not due him. The greater his success in this, the greater thief he is, if he takes out of the world more than he has put into it.—Lyman Abbott.

Round Robin.

Originally a round robin was a petition or protest signed in such a way that no name headed the list; that is, the signatures were usually placed in circular form. The device is French and the term a corruption of rond (round) and ruban (a ribbon). It was first adopted by the officers of government as a means of making known their grievances.

To Prevent Rugs Slipping.

There are many devices to prevent rugs from slipping on highly-polished floors. One of the best and also the cheapest is to cut pieces of rough sheathing paper the exact size of the rugs and lay it under them. They will not move them. Another way is to sew triangles of corrugated rubber sheeting to the corners of the rugs.

Not Half.

The ticker doesn't always tell everything that happens in Wall street.

NURSES
Supplied Promptly
DAY OR NIGHT

When there is sickness in your home, secure a nurse. We have a large number of dependable nurses always ready for service.

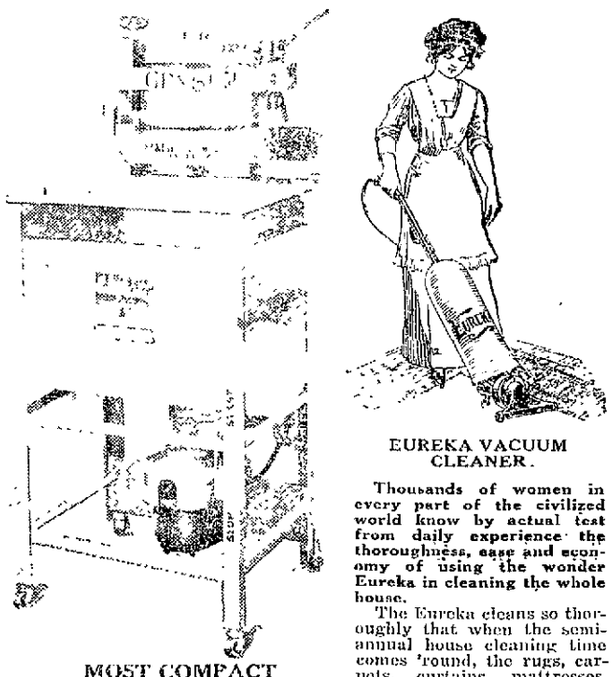
The Housewife of the Hour Knows Great Cleaning Power

THE MOST EFFICIENT, MOST ECONOMICAL AND EASIEST WAY TO CLEAN



EUREKA VACUUM CLEANER.

Thousands of women in every part of the civilized world know by actual test from daily experience the thoroughness, ease and economy of using the wonder Eureka in cleaning the whole house.

The Eureka cleans so thoroughly that when the semi-annual house cleaning time comes 'round, the rugs, carpets, curtains, mattresses, pillows, etc., are just spick and span—all the work is done—you are free from worries, backaches and that long ten-day siege of ceaseless dusting and sweeping.

MOST COMPACT
Electric Washer and Wringer Ever Built

The Geyser
THE RIGHT PRINCIPLE

A **Powerful Circulation** of hot suds is **forced** through the clothes by means of a high-speed **propeller** in the bottom of the tank. The water is also drawn back through the clothes by **suction.** This **double** washing action assures quick, thorough washing. There is **no wear** on the clothes, as they always remain under hot water in a constantly revolving cylinder. The unique "Geyser" principle of washing enables the **entire** tank and cylinder space to be used, instead of one-third to one-half of it.

Pictures of Christ.

All pictures of Christ now in existence represent the artists' imaginative conceptions, based more or less on Biblical and other descriptions of his personal appearance. The works of Leonardo da Vinci and Raphael are the earliest acceptable ones.

It Can't Be Done.

A French professor avers that the greatest wealth of ideas comes to the human brain between two and five o'clock in the morning. Has the learned professor ever been able to hit on one that came anyways near fooling his wife during the wee small hours? Neither have we.—Grit.

The Sunflower.

In olden times the name for the sunflower was solsecle the sun-follower. The ancient sunflower, or sun-follower, was the marigold; the plants of the present day are of American origin. It sometimes attains a height of 20 feet. It was introduced into Europe in the middle of the sixteenth century.

Spasmodic Sermon.

When a rich man departs this life without leaving a good will there isn't much peace on earth among the remaining heirs.

Daily Thought.

I will be as harsh as truth and as uncompromising as justice.—William Lloyd Garrison.

One Word Spoils All.

Just when a woman begins to be invited out a little by nice people her husband spoils all by referring to the laundress as the washerwoman right out where everybody can hear.—Ohio State Journal.

Head Down.

An Indiana paper tells of a woman "with tears coursing down her brow." Imagination can only picture a trapeze performer doing the weep with her other act.—Boston Transcript.

A Little Success.

Don't let a little success turn your head. Remember that there are several billion people in the world who don't even know that you are alive.—Arkansas Thomas Cat.

Darkest Just Before Dawn.

It is just when a man gets down the lowest, and things look the darkest around him, that light breaks in and hope begins to live again.—R. B. I.

Left-Handed.

It has been noticed that parrots usually seize objects with the left claw, and that the lion uses the left paw when striking its prey.

Strange but True.

You can't find any molasses that tastes like maple sirup, but you can find a lot of maple sirup that tastes like molasses.—Buffalo Enquirer.

Fruits Stand First.

Fruits have the honor of being most widely diffused geographically, grown with the kindliest care, and of being first used by man as food. They still enter largely into the regimen of the cultivated nations, and are the fairest of civilizers. . . . The use of them is of such universal importance that we can not subsist in any plenty or elegance without them. And everywhere beside the cultivated man grows the orchard, to intimate his refinement in those excellences most befitting his race.—A. Bronson Alcott.

Look for the Large Chance.

The opportunity that is bigger than you are cannot help you, no matter how close it comes. To be worth anything, a chance must fit. Instead of simply waiting for your opportunity, grow up to it. Big people do not need to put up with small openings, and little people find it impossible to fill big ones. If you are growing all the time, and filling yourself for the larger chances, you need not worry for fear they will fail to present themselves.

Too True, Alas, Too True!

If you would be classed as a good fellow all you have to do is to all plaud your fool friends.—Milwaukee Journal.

What Is in Your Heart?

It is not always necessary to make a conscious effort to help others. If we are trying our hardest to do right, helpfulness will radiate from our lives, as heat radiates from a fire. If there is kindness and sympathy in our hearts our very silence will be eloquent. The greater part of helpfulness is the conscious sort which is the direct result of our being what we are.

Took Time to Prepare Work.

The more one reads of the great war the more one must appreciate the fact that Victor Hugo's immortal description of the battle of Waterloo was not written until 1861, or 46 years after it happened, and time had been given for the dust to settle. It was 37 years after Waterloo that Tennyson wrote "Bury the Great Duke With an Empire's Lamentation."

Not a Bad Old Custom.

Until recent years there was a most respectable old inn in Warwickshire, England, the proprietor of which was accustomed to invite all his patrons to accompany him and his wife Sunday mornings to a church directly opposite the inn. On returning from service each customer was expected to partake of refreshments offered by the hospitable landlord free of charge.

Something Else to Do.

You will see the pools and the standing water frozen through the winter, when the little running streams are bounding along between fringes of icy gems. Why is this? The streams have something else to do than stand still to be frozen up. Be you like them.—John Hall.

Cheerfulness Wins.

Wondrous is the strength of cheerfulness, altogether past calculations its powers of endurance. Efforts, to be permanently useful, must be uniformly joyous—a spirit of sunshine—graceful from every gladness—beautiful because bright.

Christmas Box Nuisance.

The Christmas box was at one time greatly in evidence—so much in evidence that it finally became an intolerable nuisance, and the people rose up in rebellion against it. At Christmas time hordes of boys and journeymen and apprentices crowded the shops and ran about the streets in certain parts of England begging coins for the small boxes they carried. One can readily imagine how much of a nuisance the boy might make himself under such circumstances.

Japanese Idea of Music.

Among the Japanese especially, a directly divine origin is attributed to music. The mythical legend runs that the art was invented by the gods to appease the anger of the sun goddess and to induce her to shine once more upon the earth and upon the other divinities. The melodies which resulted were potent to prevail upon her, and thus was light restored to the world and music and dancing were given for its delight.

Soya Bean Oil Production.

Soya bean oil, which originates principally in Manchuria, is almost entirely controlled by Japanese. The supply of beans last year was very large and the amount of oil turned out was limited only by the capacity of mills. A number of large new plants were started both in Manchuria and Japan and most of the already established mills increased their capacity.

Wasting Light.

A lighting expert says that about $200,000,000 worth of light is wasted every year in this country through failure to keep windows, globes, reflectors and other light sources free from dust and dirt. The lighting bill for the nation is about $500,000,000, and if this expert is right, we are wasting two-fifths of this.

Antiquity of Gloves.

Gloves are of great antiquity, having been worn in England as long ago as in Saxon times. Practically the only change which there has ever been in styles of gloves has been in their decoration. Sometimes they were richly adorned with jewels, £5 having been paid for a pair in the fourteenth century.

Like as Not; Like as Not.

As children we used to think that the sardines came from Sardinia. Now Maine cans and sends out $10,000,000 worth a year, and claims there are no better ones on the market. We suppose the olive oil the fish are packed in comes from Mississippi or South Carolina.—Brooklyn Eagle.

Wonderful Miniature Motor.

A miniature electric motor is described as weighing only 150 grains, and as being inclosed in a shell about an inch and a half long and an inch and a quarter in diameter. The shaft is designed especially for holding tools of dentists or surgeons, but it may be used for fine drills for metals or gems, or for other similar purposes. The motor is driven at a maximum rate of about 5,000 revolutions per minute, and is adapted for use with either direct or alternating current.

Work for Homemakers.

The homemaker should be as alert to make progress in her life work as the business or professional man. The most profitable, the most interesting study for women is the home, for in it centers all the issues of life.

Give the Best That's in You.

The man who persistently and determinedly fills his position in the best possible way will eventually succeed from a monetary standpoint, not to mention the good he is doing by setting such an example, and his infinite gain in character and self-respect.

As the Gang Saw Them.

Three little boys were calling each other by the names of "Red," "Squinch" and "Bones." When asked why they did so. Squinch spoke for them. "It's our names what matches our looks best to the gang."

Only One Kind of Right Action.

Rightness expresses of actions what straightness does of lines; and there can no more be two kinds of right action than there can be two kinds of straight lines.—Herbert Spencer.

"Fireproof" Orientals.

Orientals seem to be immune to the fierce heat of the fireroom in ocean steamers, and can endure for a great length of time temperature that would speedily prostrate white men.

Reason in Their Fall.

Institutions may crumble and governments fall, but it is only that they may renew a better youth.—George Bancroft.

The Fandango.

The dance bearing this name is of Spanish origin. It is in three-eighth time and is invariably accompanied with castanets and sometimes also with a tambourine. Its musical character is the strong accent on the second beat of each bar instead of the first.

Where the Trouble Is.

If we cannot agree with our present co-workers or neighbors, making a change will in no way help to mend matters. It is almost a certainty that we shall find the new folks just like the persons we left behind us, as far as indifference and inconsideration are concerned. The trouble is with ourselves, and until we realize it and make an attempt to change our own unfortunate temperaments we will not be happy anywhere.

Day of Quill Pen Gone.

Trite as true is it to say that times change and the manners with them. Although the habit of carrying the pen behind the ear has not altogether disappeared in this day of the fountain pen, typewriter machine and other similar devices, the quill pen, so far as the present generation goes, is now more of an adjunct of romance, stage settings and motion pictures. The fountain pen does not lend much artistic atmosphere to such as these.

Washington's Hair in Ring.

A signet ring containing locks of hair of George Washington has been added to the collection of relics of Alexandria Washington lodge of Masons, No. 22, in Alexandria, Va. The ring, which was the property of Mrs. Martha Peter, granddaughter of Martha Washington, contains several locks of Washington's hair—of reddish brown mixed with gray. It is inscribed "A. Hamilton, 1798." Abigail Hamilton was the grandmother of the donor.

Wisdom of the Ancients.

It is my custom every night to run all over the words and actions of the past day; for why should I fear the sight of my errors when I can admonish and forgive myself? I was a little too hot in such a dispute; my opinion might as well have been spared, for it gave offense and did no good at all. The thing was true; but all truths are not to be spoken at all times.—Seneca.

Testing Pleurisy With Coins.

A novel method of diagnosing pleurisy is described by P. Lereboullet in the Paris Medical. The examiner applies his ear to the patient's chest, closing his other ear, while coins are clinked at the patient's back. The sound of the coins coming through a healthy, normally-aerated lung seems distant and dull, while through an affected lung, through soiled or homogeneous tissue, a clear, silvery, metallic ring is heard.

How Wind Travels.

When you are discussing the wind you must know that a gentle wind travels about five miles per hour, a high wind about 30 to 45 miles per hours, and a great hurricane 80 to 100 miles per hour. The velocity of the earth on its own axis exceeds, it is believed, 1,000 miles an hour. The velocity of the earth around the sun is calculated to be 66,000 miles per hour, and the velocity of the moon to be 2,273 miles per hour.

Forests of the Caucasus.

The forests of the Caucasus in Russia are estimated at 12,000,000 acres, chiefly in the Black sea territory, which is at the rate of nearly twenty acres to each inhabitant. The forests of western Siberia have been scarcely explored, but they are stated to be 200,000,000 acres in extent, more than half being in an absolute state of nature.—Rocky Mountain Herald.

Long Mountain Range.

Sumatra is of volcanic origin, and, together with the other members of the Malay group, formed in an early period of the world a part of the Asiatic continent. The Barisons, or Sumatra Alps, form a broken chain of mountains, running lengthwise of the island. Some of the highest points of the chain are 10,000 and 12,000 feet above the level of the sea.—Rocky Mountain Herald.

Great Is Power of Love.

If you would gain mankind, the best way is to appear to love them; and the best way of appearing to love them is to love them in reality.—J. Bentham.

Responsibility.

If we are not responsible for the thoughts that pass our doors, we are at least responsible for those we admit and entertain.—Charles B. Newcomb.

On the Go.

Comfortable incomes today are rare—most of them don't stop with us long enough to make themselves comfortable.—Boston Transcript.

Mildew Stains.

To remove mildew stains, rub with lemon juice and salt. The same treatment will remove peach and all friut stains.

Lanterns of Horn.

Lanterns of horn were used by both Greeks and Romans; they put lamps into them for the purpose of lighting themselves home on moonless nights.

The Modern Complaint.

The fellow who used to kick when he was handed small change now kicks about the smallness of the change he is handed.

Optimistic Thought.

Remember not to cast pearls before swine.

Dare to Turn Back.

It often requires courage to turn back when we have taken a wrong step, but it is easier to turn back after the first step than after the second or third, and much safer and pleasanter.

Stockholm an Icehouse.

Stockholm is built upon islands, and the name means "an island in sound." For several months in the year it is closed by ice.

Fatal Diseases.

Bronchitis is the most fatal disease in England; next comes consumption, and then heart disease, pneumonia and scarlatina.

Telling a Big Bell.

At the Church of the Sacred Heart, in Paris, a 22-ton bell is tolled by electricity. A choir boy now does the work which formerly required the services of five men.

Much Effort, Little Result.

"Some men," said Uncle Eben, "is like tops. Dey buzzes around an' around and don't never git nowheres."

Great and Small Minds.

If you would stand well with a great mind leave him with a favorable impression of yourself; if with a little mind, leave him with a favorable opinion of himself.—Coleridge.

Prevents Cracking.

When pouring boiling milk or water in a tumbler or glass dish stand the tumbler or glass on a knife and the glass will neither break or crack.

Power of Sympathy.

There is a wonderful power in sympathy to open and display the hidden richness of a man's own seemingly narrow life.—Phillips Brooks.

Impossible.

Hub—"I don't believe in parading my virtues." Wife—"You couldn't, anyway. It takes quite a number to make a parade."—Boston Transcript.

Finds It Out, Afterward.

If a young man is really in love, he never says he can't afford to marry.

The Way Out.

If a man or a machine is unable to accomplish a task it should be turned over to a woman and a hairpin.—London Answers.

Rubber in Auto Tires.

The American automobile public calls for 80,000 tons of India rubber for the manufacture of its tires each year.

Daily Thought.

A bad ending follows a bad beginning.—Euripides.

All There Is to It.

Philosophers make a great deal of the mystery of life, but when you've got it all summed up, it turns out to be nothing but an opportunity to be a friend to somebody else.

To Clean Marble.

To clean discolored marble, first of all wash with soap and water, then wipe dry and apply a paste made of powdered bathbrick and lemon juice. Rub it well into the discolored parts and rinse it off in clean cold water.

A Flax "Hurry-Up."

A machine has been invented by a Scotchman that prepares flax for manufacture within a few hours after it has been pulled from the ground instead of taking days, or even weeks, as usual.

[illegible] Clothes.

"[illegible] the facetious feller, [illegible] a dime in his [illegible] Here is where I invest a dime [illegible]."

Mixed.

A certain professor was struggling to make clear the point that both parents have an equal influence upon a child. "For," he said gravely, "a man is as much the son of his father as he is the daughter of his mother!"

[illegible]

The [illegible] a living, but it takes work to identify yourself is the fellow it's coming to.—Boston Transcript.

Defeat.

What is defeat? Nothing but education; the first step to something better.—Wendell Phillips.

Optimistic Thought.

Age is venerable in a man—and would be in a woman if she ever became old.

LOOK AT THESE PRICES. Every item on this list, as well as everything in our store, sold at lowest possible prices. INCREASE YOUR INCOME—give your husband a raise by making his salary go farther, or increase your own allowance by spending it properly. Our stores are conducted for those who want to get the most for their money, as well as the best.

Magician's Real Object.

We do not learn tricks of magic in order to deceive other people but to entertain them. The magician's object is not to mislead but to amuse.

Competitive Accomplishment.

"My daughter is taking fencing lessons, and you should see how she can *eat.*" "*That's nothing.* You ought o see how mine can throw a fit."

Life of a File.

Efficiency experts have been studying files and find that the life of one of these tools, on the average, is 25,000 strokes. To employ a file for more than its *normal period of usefulness,* it is claimed, more than doubles the cost of the work.—Popular Mechanics Magazine.

Japanese as Gymnasts.

Nearly all Japanese soldiers are expert gymnasts, and every barrack has a gymnasium. So well trained are they that in less than half a minute they can scale a wall 14 feet high by simply leaping on each other's shoulders, one man sustaining two or three others.

French in South America.

Throughout South America French is almost universally read; editions of the classics are in most homes, and book stores are filled with modern French writers of prose or verse, both in translation and in the original.

Wholesome Don't.

Don't lose your temper. It is of far more importance to keep good tempered and undisturbed even if things do go a little wrong than to set the nerves of the whole family on edge because of some omission.

Oyster Mystery Explained.

We are told that oysters are sensitive to extremes of heat. Which explains why you run across so few of the little darlings in a bowl of soup.—Knoxville Journal.

Plants Affected by Sun.

Some remarkable variations in plant structure and color from exposure to the sun at different hours of the day have been brought to the notice of the Royal Microscopical Society of England by Col. R. E. Rawson. In flowers of the common nasturtium—tropaeolum majus—the low sun of the early morning developed yellow coloring matter, the middle sun of midday stimulated the violets, blues and purples. The color of the foliage and lobing of the leaves also changed.

Optimistic Thought.

The chamber of sickness is the chapel of devotion.

Love and Life.

And the gist of life is love, and the tenure of it is forever.—Exchange.

Butterbean Is Meal.

A meal for a whole family from one bean is possible now in California. The bean is called the Guinea butterbean, and one offered in the Los Angeles market was almost three feet long and nine inches in circumference. It is said to be excellent eating, similar to the eggplant.

Shakespearean Brides.

None of the weddings of Shakespeare are conventional and no thought of the display wedding that women are said to love disturbed these brides who all seem sadly lacking in the reserve attributed to women. The Shakespearean bride does not have to be coaxed to name the day. Juliet, Portia and Olivia forstall their lovers in mentioning the ceremony, the latter two hurrying their bridegrooms to church with a haste that is almost unseemly; and we have the testimony of Othello that Desdemona did the most of the courting.

Honey in Africa.

Quantities of honey are found in the African forests by the natives in hollow trees. The honey is generally at the summit of the tree, and the men knock down the tree and smoke the bees out of their lodging with burning grass. The honey is then quickly collected and taken to camp.

When Traveling.

In preparing a lunch for a journey, bake the bread in empty baking powder cans. After slicing and spreading, replace it in the cans, put on the covers, and the bread will be as fresh at the end of the trip, though it may be several days, as it was when first packed.

We've Met the Lady.

A modern novelist describes a lady with whose like some of us are not wholly unfamiliar. "One moment," he says, "you think you are great chums, and the next you wonder if you've ever been presented."—Boston Transcript.

Daily Thought.

It is necessary that whoever is brave should be a man of great soul.—Cicero.

Warning Had Effect.

Helen is sensitive when teased about her hair. After patiently listening to her playmates' taunts for several minutes, she became angry and stamped her small foot, and loudly informed them: "I know I'se got red hair and I'se got a bad temper to match wif it, too. You better 'member that." Helen isn't teased any more.

Found His Stories in Dreams.

Human dreams are instinct with imagination, as is shown by the case of the romancer R. L. Stevenson, who asserted that he had so trained his dreaming mind by self-suggestion that it furnished him with the conception of some of his best stories. Anybody who can do that may make a mine of his dreams.

Costs Money to Use Chair.

There is a "public house" in Dumfries where may be seen an old armchair alleged to have been invariably used by the poet Burns when he visited the place. All who sit in this chair are required to "treat" all who may be in the room at the time.

Judging Others.

We cannot judge our fellow men without in some measure judging ourselves. We are always inwardly laying down laws for others, and by that very act are forming a code for ourselves. The wrong we see in another may be the sin of his ignorance, but there can be no like excuse for us who have recognized and labeled it.

Afghan Music.

The Afghans have a penchant for musical instruments, and the wealthier classes import some costly makes, though occasionally their manner of using them is somewhat startling. An Afghan nobleman sent for a grand piano, and had all the lower part cut off, as he found it most convenient to play it squatting on the floor.

Its a Lifetime Business.

The contents of the widow's cruse had quite a *reputation in their day,* but probably nothing else ever lasted as long as the settlement of a large estate in the hands of a competent executor.—Ohio State Journal.

MEATS — COMPETITION

The price of meats is lower in Auburn Park since we entered the field here last November. Even if you have not favored us with your patronage you none the less are obligated to us, because we have compelled reductions by our competitors.

The live stock market on all meat animals has advanced greatly the past week but by reason of foresight we are prepared to offer the greatest values in meats next Saturday, February 15th, that can be had—and you get quality, too—if weather conditions are favorable see our window display Friday evening. Who reads this ad should trade with us—you won't regret it—and we make a fair profit, too.
